
ARTWORK INVENTORY MANAGEMENT

A new, simple way to take full control of your valuable artwork assets !

- Curator™ is a custom APP "in the cloud" … a software service that you subscribe to on a month-to-month basis.
- Manage your inventory: know where it is … and where it's going next!
- Store an unlimited number of artwork items in the Curator™ app, including images and all descriptive information and metadata.
- ***Your first 20 artwork items can be stored FREE*** while you explore the many ways Curator will simplify the management of your works of art.
- Curator™ stores all the necessary information about the galleries that exhibit your works of art, making it easy to prepare packing lists for shipment and display the aggregate value of your exhibited art in easy-to-ready graphic form.

- Produce price lists, packing lists, gallery lists, collectors lists … and more!
- Keep track of all your 2D paintings & photography … and 3D sculptures, too.
- Whenever artwork is sold, the buyer's information can be saved in Curator's built-in mailing list of collectors.
- Easily view and manage your exhibited art, using dates, locations, prices and other important data.
- Built-in mailing-list and bulk-email dispatch feature.
- Works with Macintosh or Windows computers; also works on iPad devices for easy mobile Wi-Fi access.
- Integrated video tutorials
- Easily accessible technical support
