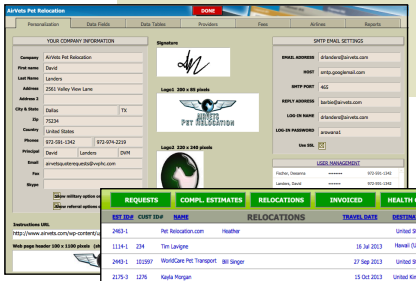
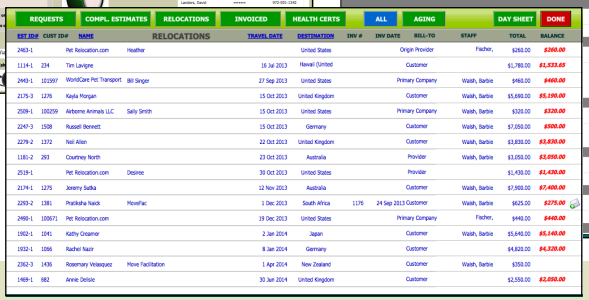
MANAGE YOUR BUSINESS

AVI-PRO is personalized to reflect your identity and electronic preferences. Instant reporting gives you control over all in-process jobs and accounts-receivable aging monitors your customer payments.



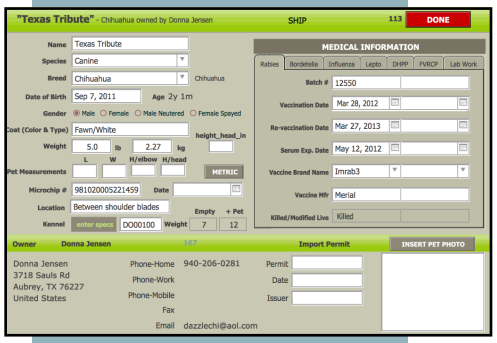


AVI-PRO

PET TRANSPORTATION SOLUTION

PET DETAILS

The detailed information about each and every pet is managed by AVI-PRO for use on all documents and determination of applicable cargo rates.



Whether the shipment is for the pet's owner or a sub-contractor, AVI-PRO keeps track of all the important shipment & transaction data.

Pet shipping software for the professional pet relocation company: manage every job from start to finish.

TO ORDER OR GET MORE INFORMATION:

Visit us or write www.petshipsoftware.com avipro@petshipsoftware.com

Low Cost Entry Option
Lease option for small or entry level companies wishing to conserve capital. Purchase option also available.

Quote Requests
When clients request quotes via your website the data is inserted directly into AVI-PRO. Clients receive prompt and customized automated responses.

Quote Based on Country
Customizable fee lists allow you to instantly create quotes based on the destination of each shipment.

Client/Pet Information Management
Comprehensive database manages all critical information for clients and their pets. Fields include billing/consignor/consignee contact information, pet demographics, vaccination/testing information, import permits, among many others.

Fill Forms Easily
Many forms such as health certificates and client instructions print directly from AVI-PRO with auto-merged client and pet details.

Timeline Event Management
Date-sensitive timeline events help you ensure all relocation tasks are completed on time.

Easy Invoicing
Generate estimates and invoices to print or attach to email as PDF documents.

IPATA Member Directory
AVI-PRO includes the current IPATA member directory. Easily designate IPATA members for origin and/or destination assistance.

Subcontract Management
Manage subcontracts from other pet shippers or corporate accounts while still including pet owner/pet info in relocation management.

Accounts Receivable
Reduce your past due accounts by monitoring aged A/R and readily send invoices to clients.

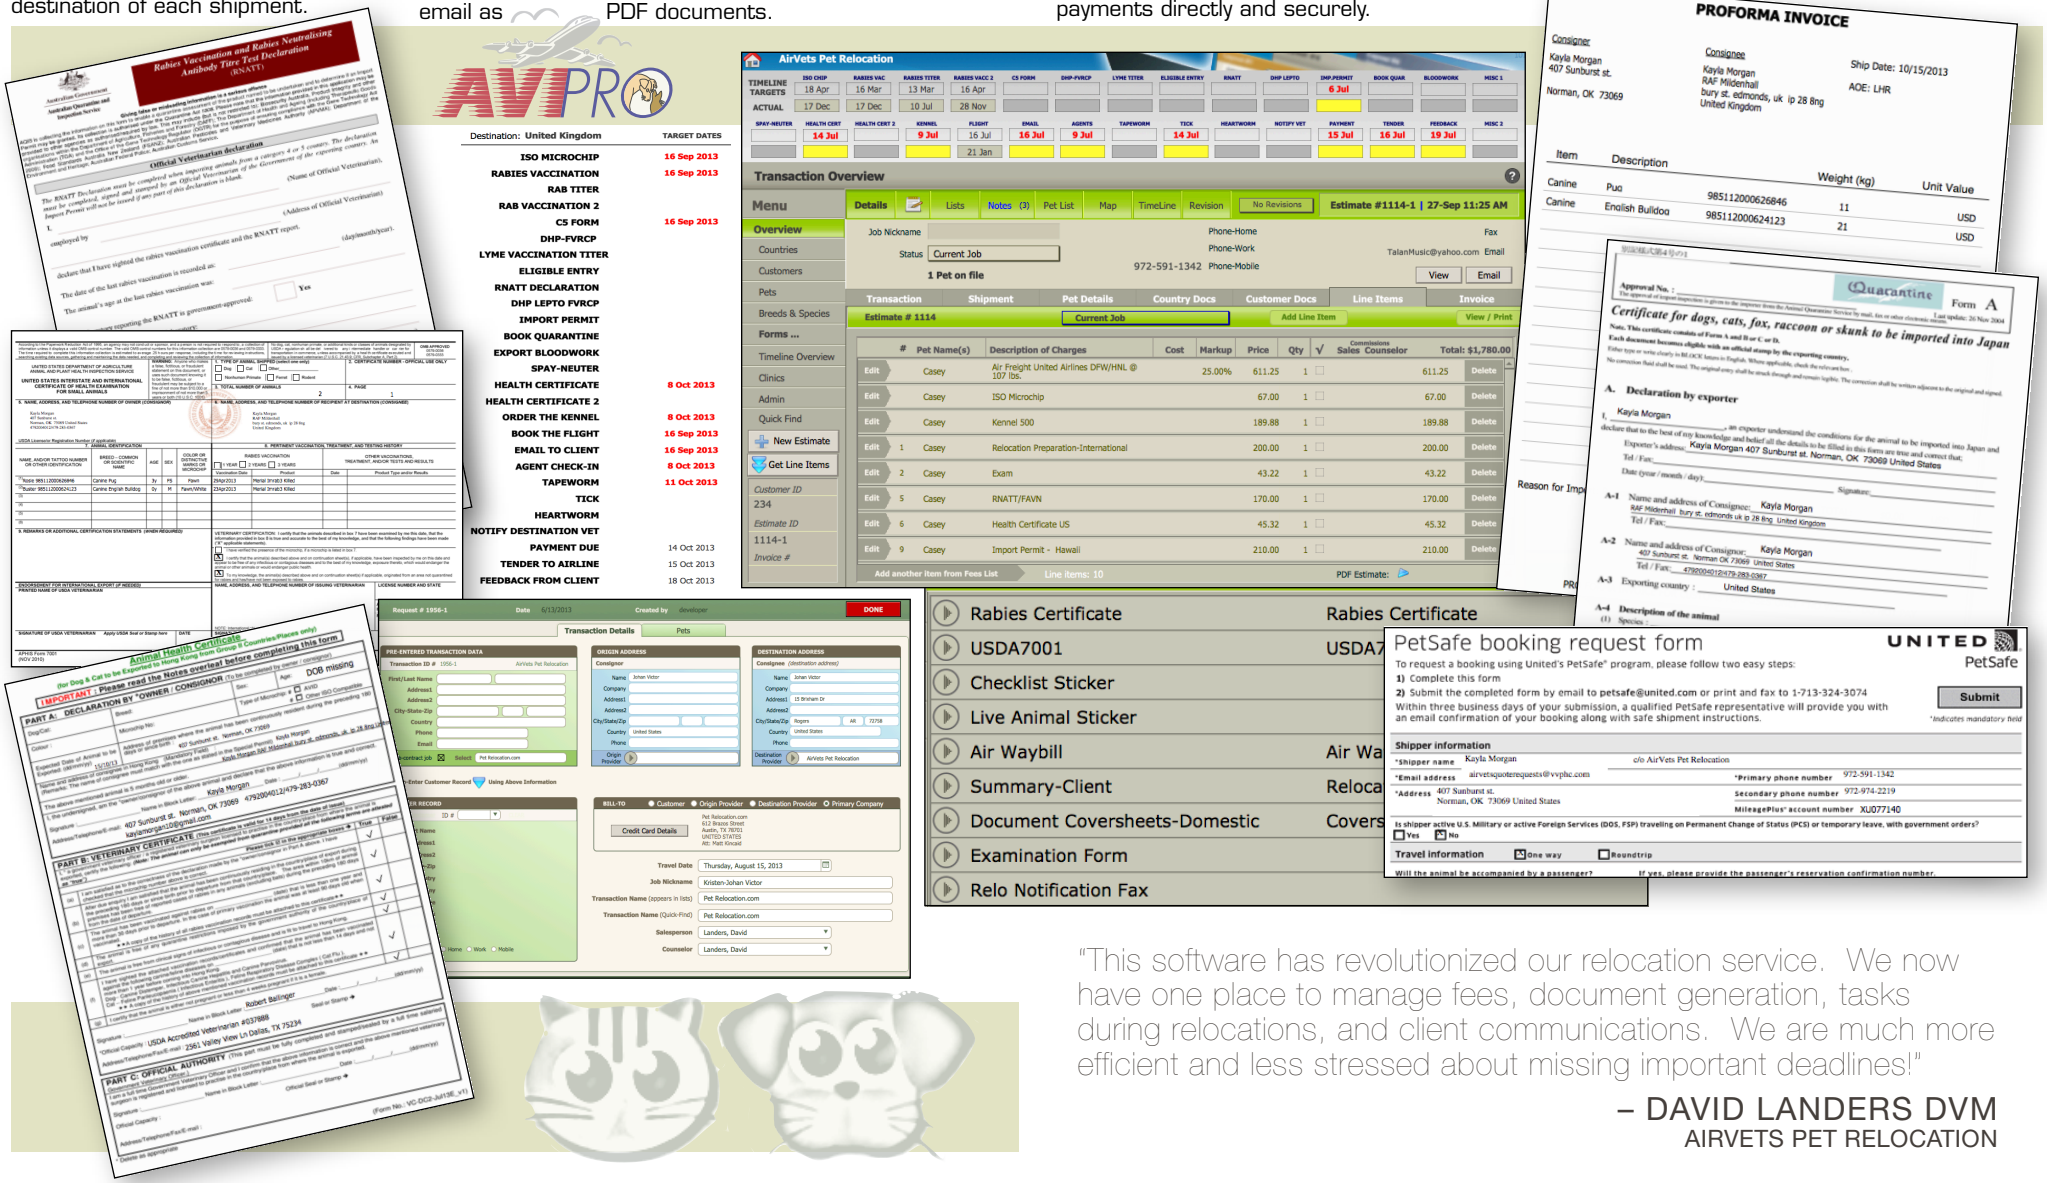
Credit Card Payments
AVI-PRO enables you to process credit card payments directly and securely.

Freight Rate Calculation
Freight rates are automatically calculated based on designated airline, kennel size, volumetric and actual weights.

User Management
Allow any number of your users to access AVI-PRO with authority-based permissions.

Stable Secure Database
AVI-PRO is built on the word-class FileMaker Pro database platform, hosted "in the cloud" for easy Internet access from anywhere.

iPad Friendly
AVI-PRO is configured for use with iPad tablets and the free **FileMaker Go** mobile app.



"This software has revolutionized our relocation service. We now have one place to manage fees, document generation, tasks during relocations, and client communications. We are much more efficient and less stressed about missing important deadlines!"

– DAVID LANDERS DVM
